

## ARG10211 anti-IgA antibody [A909]

Package: 500 µg  
Store at: -20°C

### Summary

|                     |   |
|---------------------|---|
| Product Description | Mouse Monoclonal antibody [A909] recognizes IgA |
| Tested Reactivity   | Hu  |
| Tested Application  | ELISA   |
| Host                | Mouse   |
| Clonality           | Monoclonal                                      |
| Clone               | A909  |
| Isotype             | IgG1  |
| Target Name         | IgA   |
| Antigen Species     | Human   |
| Immunogen           | pan IgA   |
| Conjugation         | Un-conjugated                                   |

### Application Instructions

|                  |  |
|------------------|--|
| Application Note | * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist. |
|------------------|--|

### Properties

|                     |  |
|---------------------|--|
| Form                | Liquid   |
| Purification        | Protein G affinity purified.   |
| Buffer              | PBS (pH 7.4) and 0.1% Sodium azide   |
| Preservative        | 0.1% Sodium azide  |
| Concentration       | 1.0-2.0 mg/ml  |
| Storage instruction | For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. |
| Note                | For laboratory research only, not for drug, diagnostic or other use.   |
